Buksér og Berging AS
Marine Projects

BUKSÉR OG BERGING

Oceans of Experience

We provide services required for execution of complex marine operations including vessels, equipment, project management and engineering.

Our HSE policy aims to achieve and maintain the highest possible standard of safety, environmental responsibility and quality in all activities.

Our strategy is to be the preferred partner by:

- Competent and proactive personnel throughout our organization
- Fleet of high quality which is continuously upgraded
- Standardized tasks onboard and systematic approach to work processes.

We bring reliability and added value to our Clients projects.
